# ORDER QUIZ OF OHIO ELECTIONS

Cleveland Bar Association Makes Request Of Official

BALLOT HANDLING CLAIMED ILLEGAL

Action Will Affect Vote METHODISTS GO Of Cuyahoga County Primaries

Columbus, O., Sept. 8.—Gov. Vic Donahey next Monday will direct Attorney General Edward C. Turner to arrange for a grand jury investigation at Cleveland of charges of irregularities in the handling of ballots cast in Cuyahoga county at the primary election August 14, last, it was announced here today by Jacob Meckstroth, the governor's

The governor's action, it was explained, will be in response to the decision reached by the Cleveland Bar association last night to ask the governor to arrange for a special grand probe. The association's executive committee, it was said collected "evidence of numerous instances of alleged irregularities in the handling of ballots," Although his week-end stay at his summer States." cottage at Indian lake.

Ohio, which authorizes the attorney distinctly above partisian and regeneral, or such special counsel as ligious bias." the attorney general may select to act for him, to take complete charge | tory of the M. E. church, a conferof a grand jury investigation when requested to do so by the governor.

This statute, it was pointed out, decrees that the common pleas ccurt shall, when requested by the attorney general under such circumstances, impanel a special grand jury of 15 persons. Such a jury may be convened at any time.

Some weeks ago, Attorney Frank Gentsch, Cleveland, defeated candidate for the Democratic nomfull term, wrote to Governor Donahey, claiming that there were irregularities in Cuyahoga county in connection with the August primary election, and asking the governor o conduct an investigation.

Donahey replied that he would instruct the attorney general to arassociation at Cleveland or in any other county requested it.

#### KEEP IT UP

How much more important than if used to be is the part the summer vacation plays in American life! That every one should have at least a week's respite from the daily grind is a comparatively recent idea. Regarded askance at first by many. it has become to be generally admitted by employers that this loss in the time given by the employe is more than made up by the mental and physical vigor gained for the rest of the year. Were it not for the growing love of outdoor life, that ould hardly be the case.

One of the features of every summer now is the camp. It has become an organized part of holiday time. It no longer means going to some remote spot in the woods or mountains. The camps are everywhere camps for boys, camps for have forgotten those days, and it is girls, camps for all sorts and conditions of men. Camping has become a cheap and common pleasure. be called upon to deal, he will, as The benefit to the health of the this French writer declares, not be community can hardly be overesti- lacking in sympathy nor in a sense mated. People may live as long in the city as in the country-the figures show that they do-but good physical trim is not easy without plenty of exercise in the open air.

Another point gained is the practicable elimination of the old tradition that sports are for boys rather than for girls, for men rather than for women. Swimming, riding, rowing, golf, tennis-all these the modern girl excels in. And why should she not? We have got long past the day when croquet was considered the "lady-like" outdoor recreation. Of course there never was a time when the athlete girl was unknown. But she is certainly now a much more common type than she used to be. Nor is there any doubt that the American physique as a whole is better developed. The cartoonists who persist in drawing Uncle Sam as a dyspeptic-looking figure are behind the times.

With summer going, there is no need for giving up the open air. The most exhilarating weather comes in the autumn. The gain to health the summer has brought need not be lost as winter comes. There may be less time to devote to sports, but the sin for walking, and that is

#### LICENSING AUTO DRIVERS The next legislature probably will

write upon Ohio's statute books a law providing for the licensing of drivers of motor vehicles and revoeation of such licenses for certain offenses. Since the defeat of such seems assured.

The obvious purpose of the proposed measure is to rid the highways of incompetent and reckless drivers. As proposed, the law would deny driving privileges to those who cannot qualify and would revoke those privileges after conviction for reckless or drunken driving.

Probably the most convincing argument for such a statute is the increasing number of traffic accidents and fatalities. It is apparent made an ascent at Richmond and to all that there are on the highways many unfit to sit behind the wheel of a motor vehicle. It is equally apparent that those who show an inclination to drive while intoxicated and a tendency toward recklessness or carelessness should lose thair driving privileges.

It must not, however, be supposed that the examination of drivinglicense applicants will guarantee absolute competency. In states where such examinations are now required many poor drivers get by the examiners.

Although enactment of the law Although enactment of the law Germany and the German Air will impose another fee upon the Traffic association last year offered

#### What Others Say

MR. HOOVER AND FRANCE A graceful and appreciative ar ticle on Secretary Hoover as ". Friend of France" appeared in the Paris Pigaro of Aug. 19. It was written by Louis Chevrillon, who especially devoted himself to Mr. Hoover's work in feeding the children and destitute in the devastated regions of France early in the war, before the United States entered it, and to his activities as food administrator, after the armistice, in getting supplies to the impoverished in several countries—Ger-many, Austria, Czechoslovakia, Serbia, Hungary, Poland and Russia. This was certainly a great labor in

humane organization, and still de-serves, as it amply had at the time the praise of the civilized world.

M. Chevrillon does not pretend that Mr. Hoover is inclined to go all the way with France. The sec-retary's point of view is thoroughly American—perhaps too innocently so in some things—and he may feel obliged to defend and assert his own country's interest even when is seems to go counter to that of France. This would be particularly the case in the matter of the war

debts, which it is understood that Mr. Hoover believes should be collected in the fullest possible degree. Nor in the matter of tariff favors. or reciprocal trade agreements could French exporters have much to hope from Secretary Hoover. after they have read his speech of women of middle age, for her which there is abundant evidence t oshow that Mr. Hoover formed and cherished during the war M. LOANS up to \$500

You might fust as well try to scratch the back of a rhinoceros with a pin as to attempt to make an impression on a number of scattered bills and installment debts from the average income. To begin with, the normal living expenses of the average family take up the greater part of the pay check and the remainder seldom goes very far.

The solution to this every-day problem is to group your billsorganize your debts and have just one place to pay your way out of debt rather than a dozen. Anyone in your household can make arrangements for a loan at The City Loan which will relieve the pressure and remove the handicap of too many obligations.

# RECORD-BREAKING MONTHS!

## Greatest August in WILLYS-OVERLAND history-68% gain over last year!

OW August has added its sweeping plurality to Willys-Overland's impressive total for 1928. Eight consecutive months have broken every record for the corresponding months in all of Willys-Overland's 20-year history.

Last month 68% more people bought Whippet and Willys-Knight cars than in August, 1927a gain of more than two-thirds!

Experienced motorists are quick to appreciate the superiority of the Whippet Four, with its many engineering advantages never before brought to the light car field; - the Whippet Six, the world's lowest priced Six, with 7-bearing crankshaft and other costly car features;-and the Willys-Knight Six, which now, at the lowest prices in history, brings the unmatchable smoothness, silence, power and operating economy of the patented double sleeve-valve engine within easy reach of thousands of new buyers.

True Economy Is Often Wise Spending

Economy doesn't always mean SAV-ING money. More often than not it concerns itself with SPENDING. There are certain things you must have for the comfort of yourself and family. Buying these things for as little as possible, without sacrificing Quality, is economy. Only the miser saves by hoarding, the clever man or woman saves through spending wisely.

Our store is especially adapted to the needs of the customer who wishes to spend wisely. Our low prices are made by skillfull buying, never by skimping on Quality; you will never find "seconds" or imperfect goods on our shelves. Best of all, our policy of selling or eash means a small ving for you on very purchase, and helps you end the nonth free from debt.

#### WELCOMED

When Marion Claire, lovely of voice and visage, returned to her home town, Lake Bluff, Ill., recently, after studying for three years in Germany, Austria and Italy, the entire population turned out en masse to welcome her. It was a memorable day for Miss Claire, whose talents have won her an engagement with the Chicago Civic Opera for the coming season.

# Now You Can Buy Your Pontiac Equipped With WIRE WHIELES Designed to give a finishing touch to the rear end of the car, the Pontiac trunk rack is equally attractive whether folded or in the carrying

Ever since the day of its introduction, the Pontiac Six has enjoyed the distinction of being the most beautiful car in the field of low-priced sixes. Its lines have always been well in advance of accepted modes. Its colors in Duco have always been fresh and intriguing. It has always appealed to the buyer of taste and discrimination.

And now, to provide still more impressive smartness and dash, special wire wheel equipment has been made available on all closed and open models. This equipmentwhich costs but \$95 extra-includes the important items that leading custom designers are employing: six wire wheels: two spare tires; front fenders with wells in which the spares are cradled alongside the hood; heavily chrome-plated spare wheel clamps; and a folding trunk rack which provides unusual luggage carrying capacity.

If you are in the market for an ultra-modish car of extremely low price, come in and see how Pontiac's low, rakish lines are enhanced by this new equipment which is available on no other six of comparable cost!

2-Door Sedan, \$745; Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795 (Sport equipment extra); 4-Door Sedan, \$825; Sport Landau Sedan, \$875. Oakland All-American Six, \$1045 to \$1265. All prices at factory. Check Oakland-Pontiac delivered prices—they include lowest handling charges. #### The Peoples' Non-Partisan Candidate for Probate Judge

To the Voters of Columbiana County, Ohio:

I am a candidate for Probate Judge at the coming election of November 6. I have already announced that I was not a candidate in the partisan August primary because I am an independent and not a partisan according to present party standards, and, further, because I do not understand the consistency of laws which provide for a partisan nomination in August for a non-partisan judicial ballot in November, and, therefore, I have sought a place on the ballot by petition.

I own and operate the farm on which I was born, and have experienced all the hardships as well as the joys of farm life. After ten years in the city, we returned to the old home farm temporarily, as we supposed, but renewed health and vigor, sentiment, love of nature, the growing of good crops, the fine spirit and hospitality of the farmer and a certain sense of freedom as compared with the city, all appealed to us, and we have remained without regret. My ancestors

and have always taken an active interest in school and ther local affairs, my great grandfather having the first Justice of the Peace in the new township in 1809, but in more than 120 years my people have had no part in county affairs except to dig ever increasing tax out of the soil. I was educated in the "little red school house" and Lisbon High School, taught school, graduated from the Law School of the University of Michigan, and am a member of the Ohio Bar. I was the first Prohibition Mayor of East Liverpool, Ohio, 20 years a member of the Executive Committee of the County Dry Federation when the conflict was fierce previous to the adoption of the 18th Amendment, Campaign Manager of the first big County Farm Bureau drive, and County Chairman of the Marshall Bill Campaign last year. I am a ruling elder in the Presbyterian Church, and was a Commissioner, unsolicited, to its recent 140th General Assembly in Tulsa, Okla. As to my political affiliations, I was for many years active as a writer and editor and worker for the Prohibition Party, the party of Neal Dow and Frances E. Willard and John B. Gough, Gov. St. John and John G. Woolley and a host of other immortals, and which party laid broader and deeper foundations for great reforms, and advocated them with greater talent and brilliancy and eloquence, with less credit, than any political party in all history, but when its great issues were stolen I became an independent, supporting about equally the cleanest and most capable Republicans and Democrats. I voted for the silver-tongued Bryan and the scholarly Wilson. In recent years I have supported President Coolidge and Senator Willis and other Republicans, but at the same time I have supported Governor Donahey and Judge Florence E. Allen and other Democrats. This year I shall support Hoover and Curtis and the Constitution and orderly government, and, I sincerely trust, the dawn of a new day for labor and agriculture and industry and business in general, but I shall also support Judge Allen and some other Democrats. I have no manager or machine or organization directing my campaign, and I can only hope to win with the active co-operation of the rank and file in personal effort. I hope for a clean and courteous and dignified campaign. If the foregoing statement of independent thought and action appeals to you as a foundation for a non-partisan Probate Court according to the spirit and intent of the law, if you are in favor of equal official opportunity for all qualified voters and tax payers and opposed to monopoly of public office by and for the few, and especially the further enrichment of my highly favored and distinguished opponent, I shall be deeply grateful for your support, and if elected, I promise court as and efficient service alike for rich and poor, fri and and foe, CHARLES F. BOUGH.

# **CONCRETE BEING** COUNTY ROUTE

#### Two Miles of Liverpool to Palestine Highway Completed

Approximately two miles of concrete have been poured on the Middleton township section of the East Liverpool-East Palestine rd, the contract for which was awarded by the State Highway department to Lewis & Copeland of Lima. O.

This road is to be given a concrete surface between the St. Clair-Middleton township line on the south to Negley on the north. It is the opinion of County Surveyor Lloyd C. Kirk that should the present schedule of pouring be continued, the road will be finished at Negley late in September, and will then be opened to traffic about Oct

Mellert & Weidner of Medina, who are pouring concrete on that section of the East Liverpool-Youngstown rd, between the Cox highway on the north, southward to Middleton will reach the intersection of the Columbiana-New Waterford rd, on or before Wednesday

Concrete pouring will then begin at Middleton and continued north-ward to the same intersection, which it is said will require less than three weeks' time. After the last con-crete has been poured on this section the road will then be opened to traffic north and south between the Cox highway and the Y. & O. sub station in Liverpool township over an 18-foot concrete road.

The East Liverpool section of this road, which is being improved will be the last section to be opened to Concrete is now being poured on this section

#### Whittles Set Of False Teeth Of Piece of Wood

Chicago, Sept. 8.—Dental labto working with fine gold and porcelain, gazed with awe here on what is regarded as the most extraordinary set of false teeth

in existence This unique artificial denture, brought to Chicago by Dr. C. E. Clements, instructor at the University of Tennessee, to the convention of the National Dental Laboratory Technicians, was whittled out of wood by a Tennessee mountaineer, and used by him for many years.

The upper set is made of oak, and the lower of basswood. Both plates apparently fitted the mouth cavities to perfection, as the original owner, Joe Hobbs, according to Dr. Clements, had no difficulty masticating corn on the cob. The teeth, carved from the same block of wood as the plates, are not bad imitations of the natural dentures.

Wood was sometimes employed in making artificial teeth during the middle ages," said Dr. Clements, "but several cen-turies have passed since anybody, to our knowledge, has used wooden teeth.

"At the meetings of our local chapter of the association, Hobbs has frequently demonstrated his ability to dispose of corn on the cob with his home-made wooden teeth, and in recognition of this feat and his ingenuity, has been made an honorary member of
